

Jack Duck

Junior Frontend Developer

jack@duck.dev [+00 123 456 789](tel:+00123456789) [/in/jack-duck](#) [/jackduckdev](#)

Aspiring Junior Frontend Developer with a strong foundation in Visual Communication and Graphic Design. Transitioning into the tech world with a passion for creating pixel-perfect, accessible, and user-friendly web interfaces. Currently focused on mastering React and modern CSS frameworks. A quick learner who thrives in collaborative environments and is eager to apply a keen eye for aesthetics to build seamless digital experiences.

🎯 Skills & Languages

Working Knowledge

- HTML5 & Semantic Web
- CSS3 (Flexbox, Grid, Animations)
- JavaScript (ES6+) React
- Responsive Web Design
- SASS/SCSS Git & GitHub Basics
- Figma & UI Design Principles

Basic Skills

- TypeScript Next.js
- Tailwind CSS
- Jest (Basic Component Testing)
- Node.js & npm/yarn
- Web Accessibility (WCAG)
- REST APIs integration

Languages

- Quackish (native) English

💻 Professional Experience

Junior Frontend Developer (PondView Interactive)

03.2024 - Present

- Developing and maintaining responsive landing pages using HTML5, SCSS, and JavaScript (ES6+).
- Collaborating with the design team to translate Figma mockups into reusable React components.
- Optimizing web assets for performance, ensuring fast loading times across mobile and desktop devices.
- Participating in code reviews and daily stand-ups to align with Agile development practices.

Junior Web Designer / UI Intern (Feathered Media Agency)

07.2023 - 02.2024

- Designed and implemented basic website layouts using WordPress and custom CSS.
- Created high-fidelity prototypes and wireframes for client projects using Adobe Creative Suite and Figma.
- Assisted senior developers in migrating legacy jQuery scripts to modern JavaScript alternatives.
- Drafted technical documentation for internal design-to-code handoff processes.

🚀 Side Projects

Waddle Weather App

A sleek, mobile-first weather application tailored for waterfowl, featuring real-time humidity and precipitation alerts using the OpenWeather API.

Technologies: React, Tailwind CSS, Vite, Axios

Link: github.com/jackduckdev/waddle-weather

Breadcrumb Hunter UI

An interactive map dashboard that allows users to log and rate local breadcrumb distribution spots with a focus on accessibility (A11y).

Technologies: JavaScript, Leaflet.js, SASS, Firebase

🎓 Education

Frontend Development Bootcamp (Professional Certification)

08.2022 - 01.2023

Skyward Coding Academy
